

Profile

I am an IT junior that has a strong interest in innovation and technology. My technical and problem-solving abilities have improved as a result of the several projects and initiatives I have worked on throughout my time at PCCOE. I have a strong background in programming, algorithms, and data structures, and I'm driven to continue learning and developing in the ever changing world of information technology. I work best in group settings, and I'm excited to lend my expertise to creative problems that have an influence.
